Composite grants: Composite grants provide support for several projects taking place over 1 to 3 years. Instead of submitting a number of separate project applications, individuals, groups and organizations can combine their activities into a composite proposal. Organizations may also find this to be a more flexible and less onerous alternative to core grants. Applicants will need to have a history of receiving project grants from the Canada Council before they are eligible to apply for a composite grant.

Composite grants are available in the following components:

- Explore and Create: [Concept to Realization](#)
- Supporting Artistic Practice: [Sector Innovation and Development](#)
- Arts Across Canada: [Public Outreach](#)

Please visit the web pages for details relating to each of the above components.
